REDEFINING POWER: *How to Align With & Tap Into Your FULL Potential*

Everyone wants to feel empowered and powerful, to have a healthy relationship with power and feel solid, centered and grounded in themselves. Who doesn't want to feel satisfied, surprised, delighted and at peace in their lives? So why is it that, instead, most of us are feeling exhausted, frustrated and overwhelmed, resentful, disappointed and unfulfilled; unable to climb out from under all the busyness, assert our influence to the fullest extent possible and have the impact that we desire?

In this interactive talk, Dori will show you how to redefine power and shift your relationship with it, so that you can align with and tap more fully into YOUR essential self and TRUE potential.

You'll learn how to:

- Stop people-pleasing & say "YES" and "NO" to the right things,
- Take care of yourself as well as you do others,
- Discover what's missing and feel excited & inspired again,
- Make choices that align with who you are; choices that are correct for you, and, finally
- See how you can move forward as the empowered leader you are & can be!

DEEPER CONNECTIONS: *How to Embrace the Dance & Feel the Joy of Fully Living*

We all want to feel whole and in charge of our lives, confident in ourselves and our gifts, aligned, generous and impactful (especially by mid-life). Most of us imagine and desire living a simpler life. So why is it then, that so many of us – seasoned and successful professionals – are feeling out of control, scattered and distracted, less connected, effective and inspired, overwhelmed by the complexities that define our lives? Isn't it time to show up as you intend, model what you know, share what you've learned and be the calm, courageous and impactful leader that you aspire to be?

In this interactive talk, Dori demonstrates how to stop living at the effect of circumstances and start creating a purposeful life. She shows you how to define a clear path going forward, one that aligns with who you are, your personal aspirations and professional commitments, and allows you to be the calm in the midst of the chaos.

You'll learn how to:

- Put yourself at the center of life (again),
- Move beyond the 'status quo' defining and dictating your life today,
- Find balance, peace & simplicity within life's complexities,
- Dance in the depths & reconnect to your creativity as you serve others, and
- Achieve a lasting sense of shared success & satisfaction.

21st CENTURY LEADERSHIP: *How to Show Up Empowered & Encourage Others to Do the Same*

Today's professionals want to work with gifted, courageous leaders who actually care about and advocate for us, who are awake, self-aware and self-compassionate, visionary, skillful and empowered. The kind of leaders who engage, call forth and bring out the best in us. Why can't each of us be our own version of that leader; committed to having healthy relationships with people, power and joy, at work and at home; leaders who use all of their capacity in service to themselves, others and our planet?

In this interactive talk, Dori shares how to show up consistently empowered and have the impact you intend. She shows you how to step into your calling, gifts, vision for the world and your capacity to create the environments - within and around you – necessary to thrive as a 21st Century Leader.

You'll learn how to:

- Shift from fear-based, old habits to impactful, new ones serving you AND others,
- Discover your true voice and the courage to USE it,
- Give yourself full permission to be the powerful AND joyful you,
- Become the role model you aspire to BE, and
- Make self-awareness, self-acceptance and masterful self-leadership your truth!
